

CM 70

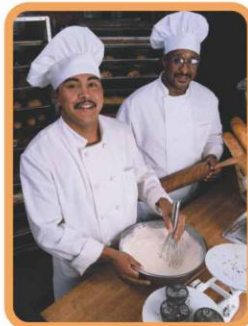

The new series of Olympia cash registers, **CM70, CM700 and CM800 series** are an excellent low cost solution for wide range of retail environments.

These cash registers always provide you accuracy, security and speed in retail business.

CM 711

Programmable functions and a clear display keyboard layout are just two of the many features making Olympia cash registers extremely user friendly and convenient for both cashier and customer.

* Models shown on the above are all in small drawers *
