### HOW SAFE IS YOUR BUSINESS?

**A SERIOUS CHECK LOSS CAN CRIPPLE YOUR BUSINESS OR PERSONAL FINANCE**  
Several billion dollars per year are stolen through counterfeit checks. Don't be a victims!

**YOUR NEED FOR CHECKWRITING SECURITY DOESN'T END WHEN YOU COMPUTERIZE!**  
Computer printed checks are not spared. They can be altered as easily as type-written checks through common methods of chemical, abrasive, or erasure alteration.

**DESKTOP PUBLISHING HAS MADE CHECK FRAUD "THE CRIME OF THE 90'S"!**  
Affordable desktop publishing packages and color printing technology have allowed your computer generated checks to be counterfeited easily.

- Model available for Ringgit Malaysia and international currency (up to 10 customized currency symbols - Model 9016-11).
- Customized sliding prefix plate eliminates the insertion of additional figures.
- Serrated security ensures that the imprint is driven deeply into the check with dye based inking, thus preventing unlawful alterations.
- Durable frame construction ensures thousands of high quality multiple copy imprints.
- Special key lock entry prevents unauthorized access.
- Exclusive replaceable ribbon cartridge.
- Imprints various sized checks quickly and accurately.
- New improved type style offers punctuation along with conventional dollar and cent demarcation.
- Made in USA.

## THE MOST SECURE CHECKWRITING PROTECTION
